--------------	----

INTRODUCTION

What is sublimation?

Sublimation is a process that permanently fuses an unlimited number of colors into a polyester fabric. It is not ink that sits on top of the fabric; it is a dye that penetrates the fiber of the fabric. That is why our sublimated team uniforms are guaranteed to never fade, crack or peel. Sublimated uniforms are the only uniforms where the base color and all logos, numbers, names, sponsor and graphic elements are applied simultaneously and permanently."

Advantages of sublimation?

Sublimated uniforms and apparel allow for endless design and color possibilities.

Sublimated uniforms will never crack, peel or fade like traditional uniforms.

Sublimated uniforms do not block the moisture wicking properties of fabrics.

Sublimated uniforms are never out of stock. They can be made with the same colors and patterns for years to come!

All sublimated uniforms are not created equal!

We use materials and construction methods tailored to each sport. With over 30 different types and weights of fabrics and specialized sewing equipment designed for the rigors of sport. We can assure you of the finest quality sport specific uniforms available today. Our fabrics offer the highest level of moisture management and antimicrobial properties available. We use only the highest quality European inks, Roland and Reggiani printers and Monti Antonio heat presses. This all results in unsurpassed dye penetration, color fastness and fade resistance.

Fully developed and implemented multi-sport sublimated uniform line

Full developed and implemented spirit wear and activewear line

Highest quality fabrics and sublimation available today

Delivered 3 to 4 weeks!

10 piece minimum for new order - 1 piece fill-ins

3 piece minimums for spirit wear add-ons

OUTER WEAR *Collection*

JACKETS | HOODIES | PANTS | PULLOVERS

RAIN – WIND – COLD

YOU PLAY IN ALL KIND OF WEATHERS
NOW LOOK GOOD DOING IT!

PLEASE REFER TO BACK AREA OF CATALOG FOR COLORS, POLICIES, AND ADDITIONAL INFORMATION

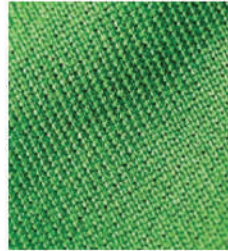

OUTER WEAR FABRIC *Collection*

We offer 6 different fabric collections designed to fit every requirement and budget. Each fabric collection's features are listed below with a useful chart at the bottom that compares the individual benefits of each fabric. While not every item is offered in every fabric we are confident that you will find a product / fabric combination that suits both your needs and your budget.

THERMATEX

Our Thermatex line is manufactured from a heavyweight knit fabric that is bonded to warm and comfortable polarfleece. Products in the Thermo-tex line are designed for cold weather and offer our highest degree of built-in warmth and comfort.

CORE

Our Core Line is manufactured from a medium weight knit fabric that features 3 soft and absorbent looped backing. The Core line is the perfect value solution when looking for a premium look at an affordable price.

DNA

Our DNA line is our premium heavyweight knit fabric offering. Featuring a lycra and polyester blend which gives the DNA line incredible comfort, 4-way stretch and an elegant and durable fabric. The DNA line is the perfect choice when comfort, durability and aesthetic appeal are the desired results.

H2O

Our H2O Line is manufactured from a lightweight yet durable waterproof woven fabric. H2O products are extremely durable, lightweight and waterproof, making them compact and highly versatile. The H2C line is the perfect choice for outdoor and sideline jackets and pullover. Please note that all garments in the H2O line are not seam sealed so moisture can penetrate these areas.

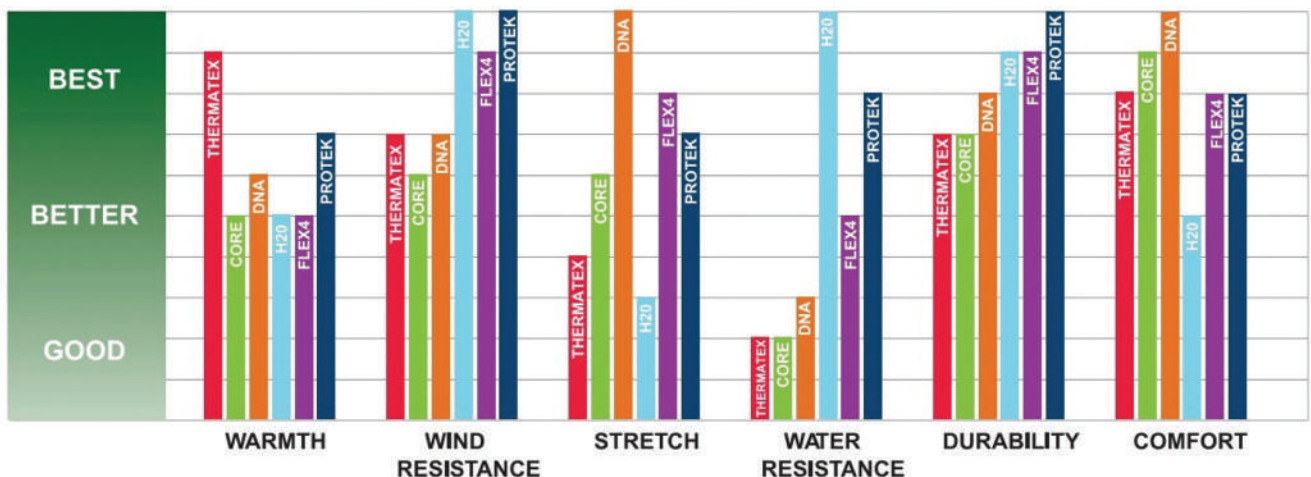

FLEX4

Our Flex4 line is manufactured from a lightweight 4-way stretch woven fabric. Flex4 products are extremely durable, lightweight, comfortable, flexible and wind and water resistant. The Flex4 line is the perfect choice for outdoor jackets, pullovers, pants and shorts. The woven design makes these products highly resistant to fabric picking.

PROTEK (SOFTSHELL)

Our Protek Softshell line is manufactured from a heavyweight 4-way stretch woven softshell fabric. Protek products are extremely durable, comfortable, flexible and wind and water resistant. The Protek line is the perfect choice for outdoor and collegiate style jacket. The exterior finish features a soft, matte finish and the woven design makes these products highly resistant to fabric picking and extremely durable.
